

**Job Title: Production & Assembly Technician**

**Location:** 628 Grooms Rd. Reidsville, NC

**Department:** Manufacturing / Logistics

**Job Type:** Full-Time

**Schedule:** TBD

**Pay:** TBD

**Benefits:** Paid Holidays

---

#### **Job Summary:**

We are seeking a **highly energetic, reliable, and motivated individual** to join our team as a **Production & Assembly Technician**. This hands-on role involves assembling LMB RAM Systems ground protection mats by bolting together cants to form 4' x 16' x 8" mats and supporting operations in other areas as needed, including extruder line operations. If you enjoy physical work, are a team player, and thrive in a fast-paced manufacturing environment, we want to hear from you!

---

#### **Key Responsibilities:**

##### **Mat Assembly (Primary Role):**

- Assemble LMB RAM Systems ground protection mats by bolting together cants and or boards
- Ensure all mats meet dimensional specifications and quality standards
- Use hand and power tools to perform accurate and secure assembly
- Follow safety protocols and maintain a clean, organized work area

##### **Extruder Line Support:**

- Pull molds from extruder and stack finished boards as they exit the cooling zone
- Monitor output to ensure consistency and quality
- Assist with line setup, changeovers, and troubleshooting as needed

**General Duties:**

- Assist in other production, logistics, or warehouse areas as directed
- Maintain a safe and productive work environment

**Qualifications:**

- **Required:**
  - High energy and strong work ethics
  - Ability to lift 25+ lbs. as needed
  - Experience with hand tools and basic mechanical assembly
  - Willingness to work in a physically demanding, team-based environment
  - **Must wear company-provided work uniform while on shift**
- **Preferred:**
  - Previous experience in manufacturing, assembly, or extrusion
  - Forklift certification (a plus)

---

**Benefits:**

- Paid Holidays
