

Job Title: Extrusion Line Operator

Company: LMB RAM Systems

Location: 628 Grooms Rd. Reidsville, NC

Department: Manufacturing / Production

Schedule: TBD

Pay: TBD

Benefits: TBD

Job Summary:

LMB RAM Systems is seeking a dependable and energetic **Extrusion Line Operator** to oversee the continuous operation of our extrusion machines. The primary responsibility of this role is to keep the machines filled with raw materials and running efficiently throughout the shift. This position also assists with pulling molds, monitoring product quality, and supporting assembly tasks when needed.

Key Responsibilities:

- Monitor and operate extrusion machines to ensure continuous and efficient production
- Keep machines consistently supplied with raw materials
- Pull molds and boards as they exit the extruder and cooling system
- Inspect output for defects, ensuring quality and consistency of all boards
- Clean, reset, or troubleshoot minor issues on the extruder line as needed
- Communicate any machine or material issues to the supervisor promptly
- Assist with mat assembly or general production tasks as needed
- Maintain a clean and safe work environment
- Follow all safety procedures and wear required PPE and **company-provided uniform**

Qualifications:

- **Required:**
 - Ability to lift and move 25+ lbs. as needed
 - Comfortable working in a fast-paced manufacturing environment
 - Strong attention to detail and focus on quality
 - Able to stand for extended periods and perform repetitive tasks
 - Must wear company-provided work uniform on shift
 - Willingness to assist in other departments when needed

- **Preferred:**
 - Previous experience operating extrusion or other industrial machinery
 - Mechanical aptitude or familiarity with basic troubleshooting
 - Forklift certification (a plus)

Benefits:

- Paid Holidays
